

## **White Glove Package - \$799 / Living space.**

### **1. Design Style Analysis**

You will be asked to approve or reject different styles and inspirational designs in order to help us determine what direction your project should go. The more detailed your answers are the more accurate our assessment can be. Our designers, combine that system and any picture, pinterest, board and other information you gave to finalize the result. We recommend that this step be done with all the people living in the house, so the new design satisfy everyone's style.

### **2. Phone / Facetime Consultation- 30min-**

Your designer will chat with you and look at your space from a video chat platform. This features helps people with awkward rooms, specific design elements or designs based on pre-existing furnitures to feel comfortable with the process... This consultation needs to be booked before any design work has started and include up to 30 min of chat. We recommend to plan a time without distraction and during daylight.

### **3. Two personalized concepts**

Our designers will prepare two unique concepts based on your space, style and wishlist. We do ask to be very specific during the project questionnaire to help us provide you the most accurate concepts. You will have to make a choice between the 2 concepts based on the style and functionality you prefer.

#### Custom Room Layout

Each floor plans is made based on the wish list presented during the questionnaire, our designers offer layouts that fit best in the space, based on technical design principles (i.e, walk flow, functionality of the space, balance and symmetry etc...).

#### 3D Visualisation

Attached with the layout, the 3D rendering allows you to get a feel of the space and visual the furniture and decor style we planned out for you.

Keep in mind that colors, shape and size might slightly differ from the finished design since our designer are limited to a computerized inventory vs the unlimited resources for the shopping list.

#### Mood Board

The Mood Board is a representation of your shopping list. Each item on the board will be part of the final shopping list. We do recommend to look carefully at the mood board to make your decision about which of the concepts will fit the best into your space. Each item is specifically selected for your space, your wish list and your budget.

### **4. Two Concept Reviews**

Our designers offer you a concept that is based on years of experiences and training so you can rest assured that your space will look amazing. However we know that creating a homey feel is a very personal thing, so this package is about customizing your design so it reflects your lifestyle to the T.

After choosing your concept, you will be able to communicate a first set of changes for both the floor plan and the mood board. The set of changes is not limited to a number of items, but we do ask that you provide all the information at once (using our design system), so your designer can work on a replacement efficiently.

You will be able to use the "comment" option on each items to give us very specific details on why or what you disliked, upload pictures to guide us and submit links of items you may like. After all comments and rejection/approval are submitted, your designer will send you all the modification necessary for a 2nd review. At this point most clients just focus on colors and accents since the majority of furniture are typically already selected. Once all items are approved, your designer will prepare the final mood board.

### **5. Shopping list**

The shopping list/ moodboard is based on the concept you approved. All Magnifique Homes designers base their selection on what is best for the client's space, style and budget without any specific affiliation to specific brand. We work mostly with online retailers so trying the items before hands will not always be possible, but most of our retailers provide a 100% satisfaction guarantee program if the product is not as described. All the items selection will fit in the budget described in the questionnaire.

6. **White glove Shopping & Insider Pricing**

Part of the White Glove service we offer, is to be able to have a designer work for you from start to finish.

To make the design process easy and fun, you only deal with us. We are taking care of the ordering, organising the shipping and processing any return you may need. All items will be assembled by handyman services and the best part, you get to enjoy our professional pricings and other privileges that varies with our partner retailers (i.e: discounts, free shipping, free return. White glove services etc...).

*Note: You are allowed to refuse this part of the package, just inform your designer when she/he starts this step.*

*Due to an ever changing in inventory we can not guarantee a specific percentage of discount per items or brands.*

7. **Designer Installation guide.**

After all items are ordered, your designer will put together an installation guide to help your (or any professional you may hire for installation) to create a space with a true “designer feel”.

You will be provided with measurements, placements, recommendations on staging and even decoration tips.

Thank you for choosing the Magnifique Team to transform your space!

Let's start designing :)
